Newark, New Jersey 07102

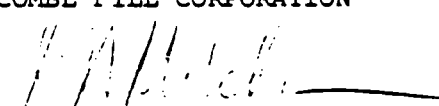

Dear Mr. Coakley:

Combe Fill Corporation has recently received requests from various companies for disposal rates for specific industrial materials, waste I.D. No. 27. A review of our present tariff on file with the Board of Public Utilities does not identify these rates or a similar material to which we can apply a rate. However, the New Jersey Department of Environmental Protection has identified this landfill as a facility capable of accepting a wide variation of industrial wastes. This discrepancy should be eliminated in our next filing for a rate increase and/or tariff change.

I will discuss the implications of same with you in the future.

Very truly yours,

COMBE FILL CORPORATION

Gary A. Molchan
Vice President and
General Manager
